

GREEN ECOLOGY TECHNOLOGIES CENTRAL ASIA

We invite You to participate!

The First International Specialized Exhibition in Uzbekistan
Waste Management Technologies, Environment, Energy Saving and Energy
Efficiency - Green Ecology Technologies Central Asia/GETCA 2018.

June 5-7, 2018, Uzexpocentre, Tashkent, Uzbekistan.

GETCA 2018 - the first specialized event in Uzbekistan which will gather well-known producers and developers of environmentally friendly equipment and technologies.

Holding of this debut event will be an important step towards addressing the primary objectives in the field of environmental security, environmental protection, use and reproduction of natural resources.

Under the patronage of the Government of the Republic of Uzbekistan and the Regional Environmental Centre for Central Asia (CAREC)

Official Support: State Committee of the Republic of Uzbekistan for Ecology and Environment

The most relevant and important sections of the exhibition are as follow:

- **Special equipment for solid waste collection and transportation;**
- **Technologies for waste sorting, processing and recycling;**
- **Clean production and consumption technologies;**
- **Small renewable energy technologies for agriculture and housing sector;**
- **Major renewable energy technologies for power and heat production;**
- **Energy efficiency in housing sector;**
- **Energy efficiency in industry.**

Looking forward to seeing as a participant of GETCA 2018!
